

LESSON PLAN - WEEK 5 TRANSITIONS

Summary

The Shaping Futures Transition week will cover GCSE, FE and HE transitions. With resources that aim to best prepare students for their next level of study, including practical advice, academic support as well as additional support. This session shares tips on how to be more organised and what to consider when making these transitions.

The main aim is

For students to feel more confident and prepared when making any of these transitions.

Linked to Shaping Futures LO: Supporting young people to make well-informed decisions about future education.

Linked to Gatsby benchmark: 3, 7 & 8

The rationale for the lesson aims: what skills will be developed?

- Increased understanding of academic expectations.
- Increased understanding of how to practically prepare for university.
- Increased awareness of student support available.
- Increased understanding of the importance of preparation.
- Increased confidence in starting university.

Anticipated difficulties for learners

Transitioning can be a daunting time for many students, as it can include a lot of changes, new routines, new environments and different ways of learning. We will reduce this with appropriate content, resources and signposting and will also be available for any questions.
