

PARENTS AND CARERS

Just letting you know that this week is a Half-Term fun week, jam packed full of fun activities for the young people of the household. However, these aren't just for them! We want this week to be inclusive for all - younger students who may not have worked with Shaping Futures yet and yourselves, of course!

Perhaps you could draw along with Sarah, dig out an instrument from the back of the cupboards to play along with George or start a big clear out of clothes and toys that Shannen may direct you to the nearest contribution centre.

Our aim is to help young people aspire to Higher Education, but also to think about their futures and the impact they can have on the world around them.

This might mean being able to cook something for themselves, safely and with lots of peanut butter. It might be setting up a home cinema for the family to enjoy or it might be helping the wider community of the city. All we ask is that everyone has a go at something new or different, or picks up something that they may not have done for a little while.

This week is zero pressure so please take part, enjoy and let us know how you get on. We've even got Kevin doing the TikTok shuffle for one week only!
