

Healthcare Science Week 2022

Healthcare science staff help to prevent, treat and diagnose a number of medical conditions using their knowledge of science and their technical skills.

Cumbria & North East HCS Council present...

Healthcare Science Heroes

A week of events for Year 9 – 13 and college students

1 – 3pm each day

Monday 14th March

Healthcare Science Heroes

The crucial contribution of healthcare scientists to the NHS during the COVID-19 pandemic – embracing innovation, researching vaccines, developing testing, and providing safe environments

Tuesday 15th March - Friday 18th March

Careers in Healthcare Science: much more than labs and test tubes!

- Hear from scientists in a variety of roles and settings
- Learn about the different training routes into these careers
- Virtual tours and a look at the equipment scientists use
 - Opportunity to have your questions answered

[Register to attend here](#)

All sorts of people work in healthcare science, making a difference to patients' lives every day. There is a clear career pathway that allows you to progress up the ladder, and there are over 50 different roles! You could be...

- carrying out scans on patients with potential brain function or nerve disorders
 - making sure incubators for newborn babies work properly
 - analysing blood samples to find out the cause of an illness
- designing equipment like hearing aids to make patients' lives better
- ensuring that equipment used in radiotherapy is delivering the correct dosage to patients
